### Regent Trophy

Winner: **Teirwgwyn Top Gun**  
 Runner-Up: **Bluepoint Kittihawk**

It's a great honour to be invited to judge what is arguably the Bull Terrier Club's most coveted Trophy. I very much enjoyed judging with Russell Lamony, who, on the two previous occasions I've judged, has been on the receiving end of the Trophy - as such, perhaps it wasn't a surprise that we were in agreement on our winning dogs. The privilege was a tad bittersweet this year however, stepping in as I was for Terry Hylands who is under the weather. I wish him a speedy recovery. The selectors had sent us six dogs and four bitches to go over. All were well presented, mouths and movement were good, and while Russell and I debated a number of the 'finer points', we were both very happy with our final decisions.

The winner was **Teirwgwyn Top Gun**, a compact, cobby and well balanced tri with excellent strong round bone. He's not the most flatteringly marked dog so you really need to handle his head to fully appreciate its strength and quality; well arched, broad, strong and deep with more fill than you can shake a stick at, topped off with a punishing expression and perfect mouth. Strong arched neck into well laid shoulders, short back, well sprung ribs and correct tail set. To be picky, I would have preferred greater forehead, but you can't have everything. Strong and well angulated quarters which he used on the move, covering the ground easily and with plenty of drive. He was presented in good, hard, fit condition, making the best of himself throughout.

Runner-up and BOS was **Bluepoint Kittihawk**, a classy white package who, like the dog, is very well balanced - she is as feminine as he is masculine. Well presented and handled, she's a super little show girl and made the very best of herself from start to finish. Beautiful head, being deep, wide and well filled with a lovely sweeping arc, great eye and correct expression, perfect mouth. Her neck is long and elegant, straight front, good spring of rib and strong, well angulated quarters which she used to cover the ground well. Again to be picky, I'd prefer a better lay of shoulder but, when judging, I favour putting them up for virtue and for me, she simply oozed 'type'.

Mention must also be made of a couple of others who particularly caught my eye: **Javarke Scarlett Moon Over Busell**, a beautifully marked heavyweight red and white with good round bone. Again very well presented and handled, she was excellent on the move, going on to take the Charlie Girl Cup for movement. Lastly **Brookbully Avenger**, a lovely typy white dog with a strong masculine head and punishing expression, excellent on the move but really not making the best of himself in his final competition of the day.

### Elaine Clark

I consider this an absolute honour and privilege and the pinnacle of my judging career to be invited to judge the Regent Trophy and I would like to thank the committee for this opportunity given to me. However, my initial joy and excitement was quickly dampened when I recalled Eva Weatherill's words to someone equally as thrilled as myself, who had excitedly called her to tell her their fantastic news at being invited to judge. Eva quipped: 'Poor you ... you mustn't have bred anything worthy of an invitation!' How true ... so firstly I would like to congratulate the breeders of all the competitors in all four of the major Trophies, as this is where the true sense of achievement belongs. This year's Regent Trophy had six dogs

and four bitches competing, all were well presented and well handled. I am pleased to say that my co-judge Elaine Clark and I were in complete agreement on our final winners.

The winner was **Teirwgwyn Top Gun**, a well balanced tri, he has a power packed head, deep muzzle with tiny eye and well placed ears giving a chilling expression, correct mouth and strong underjaw, to be ultra-critical he could use a touch more length in foreface. Strong, arched neck into clean lay of shoulder, good forehead, straight front with tidy feet. Nice round bone, good spring of rib with deep chest, short back, well set tail, good strong rear quarters. He moved with purpose and drive, he is so screaming type and quality that he could not be denied today.

Deciding runner-up and BOS was not so straightforward. It came down to two bitches, **Javarke Scarlett Moon Over Busell**, a very well put together red, she has a very feminine head with enough profile, I would like a keener eye, correct mouth, good shoulders and forehead, straight front with good bone, good topline and tail set, well angulated quarters, moving parallel with drive and purpose and holding her topline, her movement is very impressive which went on to win her the Charlie Girl Cup. However, after splitting hairs we decided upon the well balanced **Bluepoint Kittihawk** to take the runner-up and BOS position. She has a very strong, packed, yet still feminine head, very keen expression with correct mouth. Long graceful neck into good shoulders and front, well sprung rib, short coupled, well set tail, shapely rear quarters, she moves well, but she does not quite have the drive of Scarlett Moon, nevertheless we decided that Kittihawk just piped her to the post on head quality, expression and overall type.

### Russell Lamony

### Ormandy Jug For Dogs

Winner: **Ch. Meilow Silhouette From Megaville**  
 Runner-Up: **Ch. Blazinbullys Dark Knight**

It was with great pleasure that I was asked to Judge this year's Dog Jug with Linda McGregor. I thank the committee for the invitation and all the warm hospitality. It was a bit of irony to me that this year's cover was dedicated to Arthur and Joyce Miller (Brobar), the irony being that on the inside cover was a photo of Ch. Jill Of Brobar, who won the Ormandy Jug for Bitches and the Regent Trophy in 1978. George Jarrett and I awarded the Bitch Jug to her that year, in what was my first Trophy Show assignment 38 years ago. Mrs McGregor and I were in perfect agreement on our winners.

Winner was **Ch. Meilow Silhouette From Megaville**, a powerful large white dog with brindle monacles on both eyes. Tremendous bone and substance, dead straight front, excellent hindquarters, his movement was fantastic both ways. We easily picked him to go forward for the Charlie Girl Cup for Movement. This young chap, only 18 months old, has a strong well filled head with an excellent expression, to be hypercritical he could have a slightly better turned head but his other virtues easily carried the day for him.

Runner-up was **Ch. Blazinbullys Dark Knight**, black brindle and white who won the earlier Sandawana Trophy for best coloured shown in 2015. He was a totally different type from the winner, not as much bone or substance but he had a nice front and forehead. Good quarters but his movement was somewhat erratic, he had a nice outline but not as much fill as the winner.

# Bull Terrier Club Trophy Show

Two other dogs caught my attention, the white **Brookbully Avenger**, a very typy dog with a good head and expression. His owner needs to invest the time to take him to handling classes as he just needs to show better to be a Champion. I also liked the dark red and white **Fashionable Chap By Topfuel**, this dog exudes breed type. Excellent bone, strong well filled head, he is a bit stuffy in neck and his topline tends to sag a bit when he moves, but he is a very striking dog.

### Robert K. Thomas (USA)

It was an honour to be asked to judge the prestigious Bull Terrier Club's Ormandy Jug for Dogs and a great pleasure to have Bob Thomas (USA) as my co-judge.

After going over and moving the competitors there was one dog that stood out immediately and that was our winner **Ch. Meilow Silhouette From Megaville**, a very masculine white dog with a small eye patch who was full of power and substance. He has a strong well-filled head with good eye and ear placement. Correct mouth, good length of neck leading into well placed shoulders, straight front, nice cat-like feet, heavy bone, deep forehead with a well-rounded brislet, beautifully balanced all through with a strong back end, good angulation and correct tail set. He moved very well both ways with his top-line being unbroken on the move and was the best mover of the group. We put him through for the Charlie Girl Cup for Movement competition.

To find our runner-up took a little more discussion and I was very pleased with our choice of the black brindle and white **Ch. Blazinbullys Dark Knight**. Smaller in type to the winner but still oozing quality. Long completely filled head with good profile, very good eye placement and neat ears, correct bite, straight front, good reach of neck and lay of shoulder. Deep chest, straight front and correct topline, which he held on the move, well bent stifles with strong hindquarters. A very well made dog of good proportions with flowing bodylines, he moved well and handler got the most out of him.

Another one I liked was the eye-catching tri dog **Teirwgwyn Top Gun**. A very typy chap with an outstanding profile but I still think he needs a little more time to mature and develop a touch more width of chest. Although there were other quality contenders, for me our winner and runner-up stood out overall for their balance and conformation.

### Linda McGregor

### Ormandy Jug For Bitches

Winner: **Javarke Scarlett Moon Over Busell**  
 Runner-Up: **Ch. Gorbain Ice Maiden Tawnbarr**

My thanks to the Bull Terrier Club for the privilege and honour of judging at this year's Trophy Show weekend. My co-judge and long time friend and I were pleased to have such a strong group. We chose as winner, **Javarke Scarlett Moon Over Busell**, a statuesque red smut and white with a long strong head, smooth gently curved profile from start to finish, filled foreface, correct bite, excellent expression. Square in outline, she has good length of neck leading to well laid shoulders and strong correct topline that holds true while moving. Her deep chest gives her a good amount of forehead and nice sweeping underline. Correct tail set accents her strong quarters, while exceptionally well down hocks complete her rear construction. She moves freely with excellent reach and drive and went on to win the Charlie Girl Cup for Movement as well. Shown in superb condition, she never let down through three tough classes of competition.

Runner-up was **Ch. Gorbain Ice Maiden Tawnbarr**, a heavyweight white carrying a powerful head, strong deep muzzle, correct bite and dramatic profile. She has excellent bone and substance while still being able to look feminine. Front and rear angulation are adequate and she moves accordingly. She has excellent depth and width to her ribcage and strong rear quarters. While she had a more dramatic head, she gave way to the winner in soundness and construction, carrying a bit too much weight today.

### Carl L. Pew DVM, MRCVS

It was a great pleasure to judge the Bitch Jug with Carl Pew, who were in complete agreement. I was disappointed to find so many young bitches with bad top lines on the move and poor rear movement; it is more than just a head competition.

The winner was **Javarke Scarlett Moon Over Busell**, red and white in supreme condition, good head with profile, yet feminine, no exaggeration, ears on top, perfect teeth. She has wonderful symmetry, neck, leg and back perfectly balanced, perfect front and feet, hindquarters first class, well bent stifle, well developed first and second thigh muscles and moved well. Tail set is correct, kept her topline perfectly as confirmation of

her sound construction, a joy to see.

Second, a favourite of mine, **Ch. Gorbain Ice Maiden Tawnbarr**, big powerful, sound as a bell, very good head, depth and power, correct teeth, excellent neck and shoulders, first class hindquarters, moved well. Tail a tad high set, not in the best condition today.

I must mention another who stood out, **Abenaki Romantic Destiny**. Absolute top drawer, she is first class in so many ways, moved in one piece and looked stunning.

### Eric Stanley

### Sandawana Trophy

Winner: **Ch. Blazinbullys Dark Knight**  
 Runner-Up: **Javarke Scarlett Moon Over Busell**

Thanks to the BTC committee for inviting me to judge the Sandawana Trophy, which in my opinion is the most prestigious Coloured Bull Terrier trophy show on the planet today. I was pleased to find my co-judge was June Ottewill who is one of the leading authorities on the coloured breed today. Thanks to the hard work of the committee providing the perfect environment to complete our task.

My co-judge and I were in complete agreement awarding **Ch. Blazinbullys Dark Knight** the Trophy. I found this mature well-known dark brindle dog to be right on form and up for the task, showing his class and ring presence. Lovely deep square and shapely body lines, long arched strong neck, great head with fill and turn, correct mouth, wicked expression, ears right on top, good quarters, moved well and showed all the time. And to top that, the dog and handler were as one, well done.

Runner-up was the best bitch and winner of the Charlie Girl Cup for best mover, **Javarke Scarlett Moon Over Busell**. What a bitch, what a surprise for me who saw her for the first time. I can't wait to see her again, beautiful top class red bitch, steeped in class and quality, short square deep trunk, good front and feet, long strong neck, good powerful head, correct mouth, shapely strong quarters, moved and showed well all the time. Expertly handled, what more can I say, I do believe this bitch could become very important to the breed in general. At the end of the day another great Trophy Show and weekend, roll on next year.

### Jimmy Henderson

Thank you to the Bull Terrier Club committee for the invitation to judge the Trophy. The quality of exhibits was high; the selectors did a good job. My co-judge and I were in complete agreement on our winners.

The winner was **Ch. Blazinbullys Dark Knight**. Super black brindle and white dog, lovely head and eye, ears on top, correct sweep of profile, deep underjaw and correct mouth, beautifully balanced, good shoulder placement, straight front and lovely feet. Good spring of rib, well let down hocks and correct tail placement, moved well front and rear.

The runner-up, **Javarke Scarlett Moon Over Busell**. Lovely feminine red and white, super little girl, lovely head and eye, ears on top, correct sweep of profile with good underjaw and mouth correct, beautifully balanced, straight front, good feet with well arched toes, short back and correct quarters. Well let down hocks and correct tail placement, moved extremely well and was put forward to compete in the movement trophy. Two lovely Bull Terriers, thank you to all competitors, it was a pleasure to go over your dogs.

### June Ottewill

### International Trophy

Winner: **Zappy Zack Timar**  
 Runner-Up: **Ch. Anneliese vom Welpersberg**

I would like to start by thanking the committee for inviting me to judge at this prestigious event. I was honoured to judge the International Trophy with Steve Wheatley. We were in complete agreement throughout and it was a pleasure to judge a high class entry from all over the world.

Our winner was the outstanding brindle **Zappy Zack Timar** from Poland, he has a powerful well filled head with excellent profile, long neck into well laid shoulders with a straight front and plenty of bone. His chest is deep and broad with good depth of brislet and well sprung ribs, he has a lovely topline and powerful well muscled quarters with good rear angulation. He moved well in front, a little close behind.

Our BOS was the top class white **Ch. Anneliese vom Welpersberg** from Germany, she has a lovely head, plenty of fill and turn, long elegant neck, well laid shoulders, good straight front with plenty of bone. She has a short back, correct topline and great rear end. She moved well in front, a little close behind, moving slightly better than our winner on the day but we felt his outstanding virtues just edged it.

### John Woolllis

It was an honour and a privilege to be invited by the Bull Terrier Club committee to judge the International Trophy alongside John Woolllis. We were in complete agreement from the outset with our eventual winners who did not disappoint when we got our hands on them.

Our overall winner was **Zappy Zack Timar** from Poland. A powerhouse of a dog in a lovely brindle coat, this dog has maximum bone and substance in a well-defined shapely body, powerful strong well filled up head with excellent profile and roman finish but not over-exaggerated. He has a strong

tapering neck leading to well laid shoulders with a very good forehead, lovely round bone with good pasterns and good feet. Good level topline which he held on the move, with a well set on tail. Good strong rear quarters and good hocks, he moved well both in front and rear with purpose. Took the top spot today on his overall ring presence, which his more than capable handler brought out in him.

Our runner-up BOS was **Ch. Anneliese vom Welpersberg** from Germany. Very impressive well balanced white girl with eye patch who never stopped showing in the hands of her more than capable handler, she has a super strong head while still

remaining feminine, good mouth with a good eye and very good ear placement giving a wonderful expression, lovely elegant neck with good shoulders and front and nice tight feet, lovely flowing body lines leading to well angulated rear quarters, she moved very well both ways holding her topline. A real top quality girl.

### Stephen Wheatley
