**BOB: SON OF LEGENDS
BOS: BLUEPOINT FIREBIRD
BP: NOTORIOUS JOKER OF
BLAZINBULLYS**

This is an excellent Club with Shows organised by the hard working committee with the enjoyment of both exhibitors and spectators being paramount. This was rewarded with an excellent entry and a full ringside. Mini's were back on the Schedule which was good to see and I understand that photographs of the exhibits are on the Club's new website at www.npbtc.org.uk

One general comment, I do not think I have used the phrase 'adequate bone' so often. Yes, everything on a Bull Terrier should be in proportion but the Standard calls for the 'strongest type of round quality bone'.

Special Beginners

1. Mortlock's **RASCAL RUBY LOOK NO FURTHER**

9 month dark silver brindle and white bitch with well turned head, scissor bite, adequate bone, neat feet, a shade long caste and would benefit from a little more angulation at the rear, moved better coming than going.

2. Mortlock's **TREACLE TOFFEE**
6 month old tricolour bitch, a little overawed by the occasion and should be better next time out, showing good bone, tight feet, nicely turned head though with a soft expression, scissor bite, a shade long caste, would not settle on the move and could not be assessed.

Puppy Dog

1. Mathison's **NOTORIOUS JOKER OF BLAZINBULLY**

Best Puppy & Reserve Best Dog
11 months quality white terrier with flowing bodylines, adequate bone, straight front and neat feet, nicely turned head with good finish and scissor bite, keen expression, well angulated at the rear, moved well coming but close going, pressed in the challenge but was outgunned.

2. Leggatt & Pilkington's **JAVARKE KARBON KOPY**
10 months black brindle and white, different type to winner but still a lot to like, earning him Best Coloured Dog, heavy bone, tight feet, well muscled quarters, terrific downface with good fill and finish, scissor bite, keen eye, could do with a little better layback in shoulder and is a shade long caste. Did not really settle on the move.

Junior Dog

1. Emmett's **BRADAK TRUTH OR DARE**
12 month white with well turned head, good eye and scissor bite, keen expression, deep brisket, would prefer

a better layback in shoulder which showed when coming on the move, moved close behind.

2. Jones' **BAYSHUCK DOUBLE BARREL**

14 months white with fawn eye patch, strong head with good finish and scissor bite, good ear set all giving rise to keen expression, well boned, a little short in upper arm, affecting front and topline, moved wide coming and close going.

Novice Dog

1. Emmett's **BROOKBULLY BUCANEER**

13 months upstanding stylish white with brindle ear, good downface, fill and finish, keen expression, undershot, good bone with deep brisket, tight feet, would benefit from a little more rear angulation, moved close behind.

2. Weldrake's **DAZLIN**

THUNDERSTRUCK AT MEGABULL
White with brindle monocle, long strong head which would benefit from a little more fill, good eye and ear set, scissor bite, adequate bone, weak in pastern with splayed feet, well muscled quarters but moved close behind.

Post Graduate Dog

1. Fitzherbert-Stewart's **OUNSDALE CRASH BANG WALLOP AT LOCOVILLE**

5 years, dark brindle and white with full jacket, heavy bone and tight feet, gentle turn to head with good finish and scissor bite, well muscled quarters and shown in top condition, would benefit from a little better rear angulation and moved accordingly.

Res. Hackett's **EMRED WARPATH**

Limit Dog

1. Kocaba's **BADLESMERE BERTIE'S BROTHER**

Upstanding 4 year black brindle and white, well balanced with gleaming black jacket, strong head with good depth but would benefit from more fill, scissor bite, dirty teeth, reasonable shoulder, deep brisket, good bone, moved better coming than going.

2. Joshua's **BRONYGARN PRINCE OF THIEVES**

18 months white but still loose and immature, when he puts himself together he shows off a fabulous down faced head, deep and strong with scissor bite, keen expression, good bone and tight feet, deep brisket and well made quarters, a little better layback in shoulder would complete the picture.

Open Dog

powerful well turned head which is completely filled and packed, mouth slightly off, keen eye, heavy boned with deep brisket and good breadth across shoulders, short coupled, straight front and neat feet, strong quarters, OK his softish ears do detract but he is able to hold them erect, moved pretty well both ways.
